Heavy Equipment Rental Service

## Introduction

Prestige is a Saudi Arabian conglomerate with diverse interests, including Heavy Equipment Rental, Manpower Supply, Trading, and General Contracting.

Prestige has become a known name as a contributor and facilitator to many industrial and commercial development complexes within the region. Remarkably, the company has established itself as a leading contracting force in Saudi Arabia, providing services to key clients in the industrial and commercial sector and by which it is directly or indirectly participating in the economic boom.

Prestige offers a wide array of equipment and highly dependable manpower on contractual basis to many projects across Saudi Arabia, thus helping businesses complete milestones successfully. The company also undertakes turnkey projects.

The Trading division of Prestige undertakes various challenges of the supply chain industry, particularly in electrical and mechanical spheres. And, its competitiveness and flexibility in payment modules is creating its own customer audience with a rapidly growing positive response.

Prestige has to its credit, a long list of several successfully completed, sophisticated projects: Oil and gas installations, petrochemical plants, power generation, heavy lifting, logistic support and equipment rentals.

Prestige continues to work closely and tirelessly to assimilate and integrate its established values into the thought process of its business. Needless to say, the company has earned a winning reputation for its outstanding product quality, reliability and service excellence in the oil and gas industry.

## CEO Message

By the Grace of Almighty Allah SWT., M/s Prestige Rental Equipment has grown drastically in terms of business goals, reach, talent, specialty and expertise. We have worked hard to preserve human dignity and relied on the knowledge of our employees to accomplish our missions by placing customer-centeredness on top of our agenda.

We are continuously striving to delight our beloved customers and are equally committed in our efforts to contribute to the development of national, regional and international markets. We have ensured that we work with utmost sincerity and dedication to meet customer expectations.

I and my entire team of Prestige are committed to further the aforementioned aims and objectives by using the best talent, resources, and state-of-the-art equipment and machinery.

A delightful customer experience is always our first priority.

Heavy Equipment Rental Service

## Construction Equipment Rental

The Equipment Rental division supplies all types of equipment to industries such as construction, oil and gas, petrochemicals, and small and medium industrial companies. The Equipment Rental division is specialized in three areas: Heavy and light lifting, power, and transportation. The reliable service and dedication has helped various clients in getting their job done efficiently, safely, and cost-effectively.

Prestige is backed with technical expertise along with trained, experienced and certified operators and riggers. The company provides dedicated backup service through its team of qualified technicians, quality equipment, and quick logistic support.

Not to mention, Prestige provides quality service support with a diligent commitment to every need of its clients. Its lifting solutions are customized to suit the requirements of all medium to large-sized projects.

## Heavy Lifting Services

Heavy equipment is used to lift heavy cargo that are widely used in construction projects. Infrastructure development is at its rapid pace throughout Saudi Arabia and The Gulf Cooperation Council (GCC). As an integrated logistics company, Prestige is widely known for offering cranes on a rental basis along with other heavy equipment such as crawler cranes, all-terrain cranes, rough terrain cranes, and truck cranes.

Heavy Equipment Rental Service

## Transportation & Logistic Service

Prestige undertakes the transportation or logistics of large, oversized equipment. As you know, it demands a unique set of skills and knowledge to successfully execute such assignments. The rich experience and strong technical know-how in vehicle and equipment shipping has allowed Prestige to efficiently transport oversized vehicles and equipment. Needless to say, the company has a track record of handling numerous heavy lifting projects ranging from trucks, travel trailers (low bed and hydraulic) and commercial buses.

The transportation services are divided into three segments:

- Transportation of heavy equipment
- Public transport
- Car rentals

## Manpower Supply

Prestige also offers manpower supply and has a wide network of suppliers and professionals through whom the best employment services are offered to its clients. Several major projects have been successfully completed. What makes Prestige shine in the market is that even before onboarding its clients, Prestige spends a significant amount of time trying to understand the client requirements, while offering them multiple options.

In addition, Prestige has been instrumental in creating job opportunities for specialized job seekers. Interestingly, Prestige creates ideal temporary and permanent employment matches across a variety of skill sets as and when required by the relevant industry. The company continues to provide workforce solutions to improve operational efficiency, performance and cost containment to all domains within the Industry.

## Fencing Work

Fencing and the related civil works are a major part of the contracting business at Prestige. Fencing works range from supply and erection of temporary security, offices, project sites, and camps. The supply and erection of fencing is done by a high-quality steel mesh, chain link, barbed wire, and wire fencing—which is suitable for all industries, including the private sector. The company is proud of its highly skilled workforce who have got all the expertise over the use of technical equipment and machinery in the whole fencing process and are highly efficient in managing and completing the job assigned.

Some of the fencing works are

- Chain fencing
- Mesh Fencing
- Barbed Wire Fencing
- Gates and Wire Fencing

## Porta Cabin

Portacabin in Saudi Arabia is an emerging new concept in the construction industry and we at Prestige sells & rent portacabin. Portacabins are more protective against stringent environments, yet economical. The standard module for a spatial array uses a light steel structure with sandwich panel wall and steel to make it simple, beautiful, and comfortable for short work cycles.
